Flag Status: Red

Sandi -

Here is an estimate for the cost of purchasing, delivering and installing one set of Pylons as requested by the SRC.

Time and material budgetary price to install the wood poles will be 2-95' poles- \$14,941.00 and 2-115' poles- \$19,267.00. The 95' pole will give you 83' of pole above ground and the 115' pole will give you 101' above ground.

I would use this as a place holder cost estimate, as site conditions may require taller poles or costs may change.

Joanie
